Público

This course is for system administrators, system engineers, technical support personnel, and system integration/development staff who are responsible for installing, operating, or integrating Enterprise Vault within their Exchange environment.

Requisitos Previos

You must have a working knowledge of Microsoft Windows Server 2012 with some system administration experience. Basic familiarity with Exchange/Outlook is sufficient, while an understanding of Microsoft SQL Server, Exchange, and Active Directory as a power user or administrator is useful. An optional prerequisite is taking the Veritas Enterprise Vault 12.x: Implementation and Deployment class. This 4-day course covers the topics of installing, upgrading and migrating for Enterprise Vault 12.x implementations. Veritas Enterprise Vault 11.x: Implementation and Deployment can be substituted for the 12.x version.
