## VERITAS Veritas Enterprise Vault 12.x: Administration I

CÓDIGO:	DURACIÓN:	Precio:
CODIGO:	DURACION:	Precio:

VER\_EV-12.x A 40 Hours (5 días) A consultar

#### Description

The Veritas Enterprise Vault 12.x: Administration I course is designed for system administrators tasked with operating, integrating, and monitoring the day-to-day performance of Enterprise Vault within a Microsoft Exchange environment. This five-day, instructor-led, hands-on class covers Enterprise Vault's functionality, operations and features. Additional topics include using reports, basic management, and an overview of Enterprise Vault backup and restore requirements. After you complete this course, you will know how to, manage, monitor, and maintain Enterprise Vault.

#### Objetivos

- Introduction to Administering Enterprise Vault
- Maintaining Exchange Targets and Tasks
- Managing Mailbox Archiving
- Managing Enterprise Vault Client Settings
- Managing Client Access Outlook
- Managing Client Access Vault Cache and Virtual Vault
- Managing Client Access Office Mail App and OWA
- Maintaining Journal Archiving
- Migrating PST Files Introduction
- Migrating PST Files Performing Migrations
- Maintaining the Enterprise Vault Environment
- Maintaining Enterprise Vault Storage I
- Maintaining Enterprise Vault Storage II
- Managing Storage Retention and Deletion
- Managing Indexes
- Managing Retention & Classification
- Managing Enterprise Vault Search
- Maintaining Monitoring and Reporting
- Disaster Recovery Overview

#### Público

This course is for system administrators, system engineers, technical support personnel, and system integration/development staff who are responsible for installing, operating, or integrating Enterprise Vault within their Exchange environment.

#### **Requisitos Previos**

You must have a working knowledge of Microsoft Windows Server 2012 with some system administration experience. Basic familiarity with Exchange/Outlook is sufficient, while an understanding of Microsoft SQL Server, Exchange, and Active Directory as a power user or administrator is useful. An optional prerequisite is taking the Veritas Enterprise Vault 12.x: Implementation and Deployment class. This 4-day course covers the topics of installing, upgrading and migrating for Enterprise Vault 12.x implementations. Veritas Enterprise Vault 11.x: Implementation and Deployment can be substituted for the 12.x version.

#### Programa

- Lesson 2: Maintaining Exchange Targets and Tasks · Exchange targets and tasks: Overview Lesson 1: Introduction to Administering Enterprise Vault Adding Exchange targets · Maintaining and monitoring required tasks · Enterprise Vault: Overview · Administering Enterprise Vault: Overview · Archiving from an Exchange DAG Lesson 3: Managing Mailbox Archiving Lesson 4: Managing Enterprise Vault Client Settings · Determining what is archived from targets · Managing client settings · Applying archiving options to mailboxes · Adding new users to the Enterprise Vault environment Lesson 6: Managing Client Access - Vault Cache and Virtual Vault Lesson 5: Managing Client Access – Outlook · Vault Cache and Virtual Vault: Overview · Accessing Enterprise Vault archived items: Overview Supporting Exchange client access: Vault Cache · Supporting Exchange client access: Outlook · Supporting Exchange client access: Virtual Vault Lesson 7: Managing Client Access - Office Mail App and OWA Lesson 8: Maintaining Journal Archiving · Accessing Enterprise Vault archived items: Overview · Supporting Exchange client access: Office Mail App · Journal archiving overview · Monitoring journal archiving · (Optional) Supporting Exchange client access: Outlook Web App (OWA)· Managing journal archiving Lesson 9: Migrating PST Files - Introduction · PST migration: Overview Lesson 10: Migrating PST Files - Performing Migrations · Using PST migration tools · Migrating with client-driven PST migration · Configuring PST settings · Migrating with server-driven PST migration Lesson 11: Maintaining the Enterprise Vault EnvironmentLesson 12: Maintaining Enterprise Vault Storage I · Monitoring and maintaining the Enterprise Vault server · Archive storage overview · Maintaining database resources · Determining current storage state and usage · Updating the environment · Expanding the storage configuration Lesson 14: Managing Storage Retention and Deletion Lesson 13: Maintaining Enterprise Vault Storage II · Managing storage retention and expiry · Maintaining storage locations · Modifying storage · Configuring collection and migration overview Lesson 15: Managing Indexes · Index overview
  - · Monitoring Indexes
  - · Maintaining Indexes
