# IBM Transformation Advisor with OpenShift on Power

**CODE:**      **LENGTH:**      **PRICE:**

QZC44DG      4 Hours      Free

## Description

This course presents the IBM Transformation Advisor on OpenShift on Power Systems, which helps administrators and developers to modernize and migrate their applications from on-premises environments to the cloud.

Every application is different in terms of structure, configuration, and goals. It typically requires an in-depth analysis of the applications. IBM Transformation Advisor assists you in this process by discovering, assess, and plan for migration of these applications to the new environment.

## Objectives

After completing this course, you should be able to answer the following questions:

- What is Transformation Advisor, why use it, and when using it?
- What are the features of Transformation Advisor, and how to use it?
- Where to deploy Transformation Advisor?
