# Trend Micro Deep Discovery Training for Certified Professionals - Update course

CODE:	LENGTH:	PRICE:
TRM_DD-CP-UC	8 Hours (1 day)	€950.00

## Description

This is a one-day, instructor-led training course aimed at participants who have already previously followed a full 3 days training in the past of Deep Discovery and who still hold a valid Certified professional certification (valid 2 years). This one-day update training covers all new product features and training material that came in addition to Courseware version 2.1 Deep Discovery ATD over the last 2 years. This course is based on the latest Training Material and covers the following products: Deep Discovery, Deep Discovery Analyzer, Deep Discover Director (and Director Analytics)  
This course is taught by Trend Micro-certified trainers.

## Audience

This course is designed for and only available to IT professionals who have already been certified on Deep Discovery within the last 2 years

## Programme

The course topics in this 1 day training are divided into the following lessons:

### Trend Micro Deep Discovery Overview

- Deep Discovery Solutions

### Deep Discovery Inspector

- Verifying Installation and Configuration

### Deep Discovery Analyzer

- Configuring File Submission Rules

### Deep Discovery Director

- Planning a deployment
- Installing and configuring
- Configuring a deployment plan
- Managing and sharing Threat Detections (IOCs, STIX, ...)
- Managing Devices

### Deep Discovery Network Analytics

- Deploying and managing
- Using Correlation for Data for Threat Analysis

### Preventing Targeted Attacks through Connected Threat Defense

- Architecture
- Suspicious Object List Management
- Setting up Connected Threat Defense
- Tracking Suspicious Objects in Deep Discovery Analyzer

## Test and Certification

Upon completion of this course, participants may complete the certification examination, in order to validate their Trend Micro Certified Professional for Deep Discovery certification for another 2 years.
