Microsoft Azure for AWS Experts

CODE:	DURÉE:	PRIX H.T.:
MCS_40390	24 Hours (3 Jours)	€1,760.00

Description

This course provides an in-depth discussion and practical hands-on training of Microsoft Azure Infrastructure Services (IaaS) including Azure Virtual Machines, Storage, Virtual Networking, Azure Active Directory and deployment options. This training is designed to relate IaaS technologies used in Amazon Web Services (AWS) to those used in Microsoft Azure.

Objectifs

After completing this course, students will have a working understanding of:

- Implementing and managing Virtual Machines and Storage
- Implementing and managing Azure Virtual Networking
- Implementing and managing Azure Resource Manager and Resource Groups
- Implementing and managing Azure Active Directory
- Comparing Microsoft Azure and AWS features and services
- Azure AD fundamentals

Audience

The audience profile is IT Professionals, and Enterprise Architects with cloud computing experience using Amazon Web Services. However, this course focuses on providing a basis for understanding and working hands-on with Azure IaaS services, so prior knowledge of AWS is not a requirement for learning Azure.

Prérequis

Programme

This 3-day instructor-led course provides an in-depth discussion and practical hands-on training of Microsoft Azure Infrastructure Services (IaaS) including Azure Virtual Machines, Storage, Virtual Networking, and deployment options. In addition to practical, hands-on training, the student will participate in several architecture design sessions to help them prepare for real world scenarios. This training is specifically designed to relate technologies and scenarios used in AWS to those used in Microsoft Azure.
•Introduction to Azure
•Azure Virtual Machines
•Azure Networking
•Azure Resource Manager
•Backup and Disaster Recovery
•Introduction to Azure AD
•Architecture Session
