VMW_CBCM	40 Hours (5 días)	€1,880.00

## Description

This 5-day course teaches you how to install, configure, and manage the VMware Carbon Black® Portfolio suite of products, which include:

- VMware Carbon Black® App Control™ Administrator
- VMware Carbon Black® EDR™ Administrator
- VMware Carbon Black Cloud Endpoint™ Standard
- VMware Carbon Black® Cloud Audit and Remediation
- VMware Carbon Black® Cloud Enterprise EDR™

You learn how to use the capabilities of the products according to the organization's security posture and organizational policies. This course provides an in-depth, technical understanding of the Carbon Black Portfolio through comprehensive coursework, hands-on labs, and scenario-based exercises.

## Objetivos

By the end of the course, you should be able to meet the following objectives:

- Describe the components and capabilities of Carbon Black App Control
- Manage and configure the Carbon Black App Control server based on organizational requirements
- Create policies to control enforcement levels and agent functionality
- Implement rules to support the organization's security posture
- Use the Carbon Black App Control tools to understand agent and server data
- Describe the components and capabilities of the Carbon Black EDR server
- Identify the architecture and data flows for Carbon Black EDR communication
- Describe the Carbon Black EDR server installation process
- Manage and configure the Carbon Black EDR server based on organizational requirements
- Perform searches across process and binary information
- Implement threat intelligence feeds and create watchlists for automated notifications
- Describe the different response capabilities available from the Carbon Black EDR server
- Use investigations to correlate data between multiple processes
- Describe the components and capabilities of Carbon Black Cloud Endpoint Standard
- Identify the architecture and data flows for VMware Carbon Black Cloud products
- Perform searches across endpoint data to discover suspicious behavior
- Manage the Carbon Black Cloud Endpoint Standard rules based on organizational requirements
- Configure rules to address common threats
- Evaluate the impact of rules on endpoints
- Process and respond to alerts
- Describe the different response capabilities available from VMware Carbon Black Cloud
- Describe the components and capabilities of Carbon Black Cloud Enterprise EDR
- Perform searches across endpoint data to discover suspicious behavior
- Manage watchlists to augment the functionality of Carbon Black Cloud Enterprise EDR
- Create custom watchlists to detect suspicious activity in your environment
- Describe the process for responding to alerts in Carbon Black Cloud Enterprise EDR
- Discover malicious activity within Carbon Black Cloud Enterprise EDR
- Describe the different response capabilities available from VMware Carbon Black Cloud
- Describe the components and capabilities of Carbon Black Cloud Audit and Remediation
- Describe the use case and functionality of recommended queries
- Achieve a basic knowledge of SQL

- Describe the elements of a SQL query
- Evaluate the filtering options for queries
- Perform basic SQL queries on endpoints
- Describe the different response capabilities available from VMware Carbon Black Cloud

## **Público**

System administrators and security operations personnel (including analysts and managers)

## **Requisitos Previos**

System administration experience on Microsoft Windows or Linux operating systems

## **Programa**

### **1 Course Introduction**

- Introductions and course logistics
- Course objectives

### **2 VMware Carbon Black App Control Administrator**

- Login Accounts and Groups
- Policies
- Computer Details
- Custom Rules
- Tools
- Events
- Baseline Drift

### **3 VMware Carbon Black EDR**

- Planning and Architecture
- Server Installation & Administration
- Process Search and Analysis
- Binary Search and Banning Binaries
- Search best practices
- Threat Intelligence
- Watchlists
- Alerts / Investigations / Responses

### **4 VMware Carbon Black Cloud Endpoint Standard**

- Data Flows and Communication
- Searching Data
- Policy Components
- Prevention Capabilities Using Rules
- Processing Alerts
- Response Capabilities

### **5 VMware Carbon Black Cloud Enterprise EDR**

- Managing Watchlists
- Alert Processing
- Threat Hunting in Enterprise EDR
- Response Capabilities

### **6 VMware Carbon Black Cloud Audit and Remediation**

- Query Basics
- Recommended Queries
- SQL Basics
- Filtering Results
- Basic SQL Queries
- Advanced Search Capabilities
- Response Capabilities

## **Fechas Programadas**

A petición. Gracias por contactarnos.

## **Información Adicional**

Esta formación también está disponible en modalidad presencial. Por favor contáctenos para más información.
