## Description

This three-day course presents a methodology for designing a VMware Horizon® solution. The design methodology includes recommendations for the type of information and data that must be gathered and analyzed to make sound design decisions for client systems, desktop options, VMware vSphere® infrastructure, and VMware Horizon components. VMware best practices are presented for each phase of the design process. In this course, you apply your new knowledge by working with other participants to design a VMware Horizon solution for a real-world project.

## Product Alignment\*

- VMware Horizon 7.x
- \*Dieses Seminar wird mit der aktuellsten Version, die für dieses Seminar verfügbar ist, durchgeführt.

## Inhalt

By the end of the course, you should be able to meet the following objectives:

- Assess the business and application requirements of an environment
- Analyze design choices and design an infrastructure architecture for end-user computing that addresses the needs of the environment
- Design a VMware Horizon infrastructure architecture that addresses the needs of the organization and follows VMware best practices
- Document a design that can be implemented
- Design a comprehensive VMware Horizon solution

## Kurstermine

Auf Anfrage. Bitte [kontaktieren Sie uns](#)

## Zusätzliche Information

Diese Schulung ist auch als Vor-Ort-Schulung verfügbar. Bitte kontaktieren Sie uns, um mehr zu erfahren.
