# VMware vSphere: Optimize and Scale [V6.7]

| CODE: | LENGTH: | PRICE: |
|---|---|---|
| VM-VS-OS-V6.7 | 40 Hours (5 days) | $4,625.00 |

## Description

This five-daycourse teaches you advanced skills for configuring and maintaining a highly available and scalable virtual infrastructure. Through a mix of lecture and hands-on labs, you configure and optimize the VMware vSphere 6.7 features that build a foundation for a truly scalable infrastructure, and you discuss when and where these featureshave the greatest effect. This course deepens your understanding of vSphere and how its advanced features and controls can benefit your organization.

## Objectives

By the end of the course, you should be able to meet the following objectives:

- Configure and manage vSphere networking and storage for a large and sophisticated enterprise
- Use VMware vSphere® Client™, VMware vSphere® Web Client, and VMware vSphere ESXi Shellto manage vSphere
- Create a content library for deploying virtual machines
- Use VMware vSphere® Auto Deploy™and host profiles to provision VMware ESXi hosts and manage ESXi host compliance
- Monitor and analyze key performance indicators for compute, storage, and networking resources for ESXi hosts
- Optimize the performance of ESXi and VMware vCenter Server
- Harden the vSphere environment against security threats
- Encrypt virtual machines for additional security

## Audience

Experienced system administrators, system engineers, and system integrators

## Prerequisites

You must meetone of the following prerequisites:

- Understandtheconcepts presented in the VMware vSphere: Install, Configure, Manage [V6.7] course
- Equivalent knowledge and administration experience with ESXi and vCenter Server

## Programme

Course Introduction

- Introductions and course logistics
- Course objectives
- Identify additional resources for after this course
- Identify other VMware Education offerings

Network Scalability

- Configure and manage vSphere distributed switches
- Describe how VMware vSphere®Network I/O Control enhances performance
- Explain distributed switch features such as port mirroring, LACP, QoS tagging, and NetFlow

Storage Scalability

- Explain why VMware vSphere VMFS is a high-performance, scalable file system

- Explain VMware vSphere® Storage APIs - Array Integration, VMwarevSphere API for Storage Awarenessand vSphere APIs for I/O Filtering
- Configure and assign virtual machine storage policies
- Create vSAN storage policies
- Configure VMware vSphere® Storage DRS and VMware vSphere® Storage I/O Control

Host and Management Scalability

- Define and use content libraries
- Describe and use host profiles
- Describe and use VMware vSphere ESXi Image Builder CLI and Auto Deploy

CPU Optimization

- Explain the CPU scheduler operation and other features that affect CPU performance
- Explain NUMA and vNUMA support
- Use esxtop to monitor key CPU performance metrics

Memory Optimization

- Explain ballooning, memory compression, and host-swapping techniques for memory reclamation when memory is overcommitted
- Use esxtop to monitor key memory performance metrics

Storage Optimization

- Describe storage queue types and other factors that affect storage performance
- Use esxtop to monitor key storage performance metrics

Network Optimization

- Explain the performance features of network adapters
- Explain the performance features of vSphere networking
- Use esxtop to monitor key network performance metrics

vCenter Server Performance Optimization

- Describe the factors that influence vCenter Server performance
- Use VMware vCenterServer Appliance tools to monitor resource usage

vSphere Security

- Configure ESXi host access and authorization
- Secure ESXi, vCenter Server, and virtual machines
- Use VMware Certificate Authorityto configure vSphere certificate management
- Configure vSphere to encrypt virtual machines, core dumps and VMware vSphere® vMotion migrations

## Test and Certification

This course prepares you for the following certification:

- VMware Certified Professional 6.5– Data Center Virtualization (VCP6.5-DCV)

## Session Dates

On request. Please Contact Us

## Additional Information

This training is also available as onsite training. Please contact us to find out more.
