Citrix App Layering and WEM Administration

CODE:	**LENGTH:**	**PRICE:**
CTX-CWS-314	16 Hours (2 days)	$2,000.00

Description

Designed for experienced IT professionals, you will learn to build and combine App Layers to optimize management of your app and desktop images and to implement Workspace Environment Management to improve log-on times, centralize user settings management, and optimize the performance of machines.
You will leave this course with a good understanding of how to manage more complex solutions and features in your Citrix Virtual Apps and Desktop 7 site.

Objectives

What you'll learn:
- How to configure Workspace Environment Management to improve the end user environment and virtual resource consumption.
- How to migrate to Workspace Environment Management
- App Layering skills to create and administer OS, platform, application, elastic and user layers

Audience

Built for experienced IT Professionals familiar with Citrix Virtual Apps and Desktops 7 in an on-premises environment or Citrix Cloud looking to expand their Citrix Virtual Apps and Desktops skills to an advanced level. Potential students include administrators or engineers responsible for the Citrix Apps and Desktop 7 Site.

Prerequisites

This course prepares candidates to get the CCP-V certification.

Programme

Module 1: Introduction to App Layering
- App Layering Introduction   Module 2: The OS Layer Module 3: The Platform Layer Module 4: The App Layers
- Architecture and How it Works   ▪Creating an OS Layer ▪Creating a Platform Layer ▪Creating App Layers
Module 5: Creating Elastic App and User Layers Module 6: Deploying a Layered Image using Citrix Virtual Apps and Desktops
- Elastic App Layering   ▪ Using Templates in App Layering
- User Layers   ▪ Using Layered Images in a Citrix Virtual Apps and Desktops Site
                                       Module 8: Maintaining an App Layering Environment
                                       ▪ Updating Layers
Module 7: Exploring Layer Priority ▪ Maintaining and Updating the App Layering Environment
▪Layer Priority   ▪ Common App Layering Considerations and AdditionalResources
Module 9: Introduction to Workspace Environment Management (WEM)
- Workspace Environment Management (WEM) Introduction
- WEM Administration
Module 10: Using WEM to Centralize Environment Management
- Managing User Resources with WEM   Module 11: Using WEM for Performance Optimization
- Managing Profiles with WEM   ▪ Optimizing Machine Performance with WEM
- Managing Endpoints with the WEM Transformer Feature ▪ Optimizing User Experience with WEM
                                       Module 13: Migrating and Upgrading WEM
                                       ▪ Migrating to WEM
Module 12: Using WEM to Secure Environments ▪ Upgrading a WEM Deployment
▪WEM Security Features   ▪ WEM Multi-Location Considerations
