VMware Tanzu Kubernetes Grid: Install, Configure, Manage [V1.0]-Open Enrollment

CÓDIGO:	DURACIÓN:	Precio:
VMW_TKGICM1	16 Hours (2 días)	A consultar

Description

By the end of the course, you should be able to meet the following objectives:
- Describe how Tanzu Kubernetes Grid fits in the VMware Tanzu™ portfolio
- Describe the Tanzu Kubernetes Grid architecture
- Deploy management clusters
- Deploy workload clusters
- Configure your Tanzu Kubernetes Grid instance for authentication, logging, and Kubernetes ingress.
- Perform basic troubleshooting

Objetivos

By the end of the course, you should be able to meet the following objectives:
- Describe how Tanzu Kubernetes Grid fits in the VMware Tanzu™ portfolio
- Describe the Tanzu Kubernetes Grid architecture
- Deploy management clusters
- Deploy workload clusters
- Configure your Tanzu Kubernetes Grid instance for authentication, logging, and Kubernetes ingress.
- Perform basic troubleshooting

Público

VI admins who are responsible for deploying and managing Kubernetes clusters.

Requisitos Previos

Working knowledge of Kubernetes.

Programa

1 Course Introduction
- Introductions and course logistics
- Course objectives

2 What Is VMware Tanzu Kubernetes Grid?
- VMware Tanzu portfolio
- Management cluster
- Workload clusters
- Cluster plans
- Shared and in-cluster services

3 Deploying Management Cluster
- Prerequisites
- Installing the Tanzu Kubernetes Grid CLI
- Creating management clusters

4 Deploying Workload Clusters
- Creating workload clusters
- Scaling workload clusters
- Deleting workload clusters

5 Configuring Tanzu Kubernetes Grid instances
- Configuring user authentication
- Configuring logging
- Configuring ingress control

Fechas Programadas

A petición. Gracias por contactarnos.
