# VMware vRealize Log Insight: Deploy and Manage [V8.4]

Kód: DÉLKA: CENA:

VMW VRLIDM84 16 Hours (2 DENNÍ) Kč bez DPH 22,000.00

#### **Description**

Školení je vedeno virtuálně v anglickém jazyce.

Cena školení je 750 EUR bez DPH, tato cena bude při fakturaci přepočtena aktuálním kurzem.

This two-day course focuses on deploying, using, and managing VMware vRealize® Log Insight™ product. It provides you with the knowledge and skills to deploy a vRealize Log Insight cluster that meets the monitoring requirements of your environment. This course covers the configuration and use of vRealize Log Insight to collect and manage logs from a variety of VMware and third-party products. This course discusses interfacing vRealize Log Insight with other systems to monitor, troubleshoot, and secure a data center.

**Product Alignment** 

- VMware vSphere 7.0 U1
- VMware vRealize® Log Insight™ 8.4
- VMware vRealize® Operations™ 8.4

#### Cíle

By the end of the course, you should be able to meet the following objectives:

- · Identify features and benefits of vRealize Log Insight
- · Determine the vRealize Log Insight cluster that meets your monitoring requirements
- Describe the vRealize Log Insight architecture and use cases
- · Deploy and configure a vRealize Log Insight cluster
- · Use the Interactive Analytics tab to get a deep understanding of log data
- · Create and manage queries
- · Managing vRealize Agents and Agent Groups
- · Create various custom dashboards
- · Describe and use the vRealize Log Insight widgets
- · Extend the capabilities of vRealize Log Insight by adding content packs and configuring solutions

#### Určeno pro

Experienced system administrators, system integrators, and developers responsible for designing and implementing vRealize Log Insight

#### Vstupní znalosti

System administration experience with VMware vSphere® deployments or completion of one of the following courses:

- VMware vSphere: Install, Configure, Manage [V7]
- VMware vSphere: Optimize and Scale [V7]

#### **Program**

- 1 Course Introduction
- · Introductions and course logistics
- · Course objectives

#### 2 Introduction to vRealize Log Insight

- · Describe a cloud management platform
- · Explain the importance of efficient log management
- · Describe the requirements for a log analytics solution
- · Describe the key benefits of vRealize Log Insight
- · Describe the key features of vRealize Log Insight
- · Describe the various stages of log processing

#### 3 vRealize Log Insight Architecture and Deployment

- · Identify the minimum requirements for deploying vRealize Log Insight
- · Using vRealize Log Insight Sizing Calculator
- · Describe vRealize Log Insight compatibility with other VMware products
- · Describe the vRealize Log Insight architecture
- · Determine the correct vRealize Log Insight deployment for an environment
- · Install the vRealize Log Insight virtual appliance

#### 4 vRealize Log Insight Queries and Dashboards

- · Describe the primary functions of the vRealize Log Insight UI
- Use the Interactive Analytics tab to get a deep understanding of log data
- · Create and Manage queries
- · Create vRealize Log Insight custom dashboards
- · Describe and use the vRealize Log Insight widgets

#### 5 Administering vRealize Log Insight

- · Describe User Access Control in vRealize Log Insight
- · Describe User Management
- · Access the vRealize Log Insight Administration page
- · Configure vRealize Log Insight settings
- · Manage certificates
- · Configure system notifications
- Upgrade vRealize Log Insight
- · Describe the vRealize Log Insight Importer

#### 6 vRealize Log Insight Integrations

- · Describe how to integrate vRealize Operations with vRealize Log Insight
- Describe the advantages of integrating vRealize Operations with vRealize Log Insight
- · Describe the advantages of using the vSAN content pack
- · Install NSX content packs
