IBM Maximo 7.6 bootcamp series: Workflows and troubleshooting

Kód:	DÉLKA:	CENA:
MAX4308G	4 Hours	Kč bez DPH 6,390.00

Description

This self-paced training course introduces students to IBM Maximo 7.6.1.1 solution. This course includes interactive video presentations, demonstrations, and a virtual lab.
This course covers troubleshooting a Maximo system including Logging as well as the creation of Workflows and their related records like Roles and Actions.
ATTENTION: This is course 7 of 9 in the IBM Maximo 7.6 bootcamp series badge.Each course and lab exercise can be completed independently within the bootcamp series, but if you are new to Maximo it is recommended that you work through the courses in sequence. You can earn a badge if you complete the entire series and pass the quiz. Click here to go to the badge course (IBM Maximo 7.6 bootcamp series badge). Click here to view the badge on Credly.

Cíle

After completing this course, you should be able to:

- Understand the skillsets needed for Maximo and how to troubleshoot issues.
- Define what a workflow is, its purpose and how to create a workflow and configure related records.
- Discuss the concepts learned in the demonstrations.
- Implement/discuss some of these concepts that you practiced in the hands-on lab exercises.

Určeno pro

Implementation Consultants, Administrators, Technical Sales, System Users, Product Support

Program

This course is divided into several topic areas:

- **Start here**: Great place to start if you are unfamiliar with the IBM Training platform and want to get an overview of the course. It includes a course overview (this document), course instructions, and how to navigate this course.
- **Learn about IBM Maximo 7.6:** This is the one of the required portion of this course. It includes the following topics: troubleshooting and logging, and creating workflows.If you complete this section and the hands-on lab, you can obtain a certificate of completion in the Finish here section.
- **Getting started with the lab environment & exercises**: This section includes the lab guide for the exercises for these topics along with information on how to access the lab environment.
- **Additional resources**: This section includes supplemental materials that relate to Maximo.
- **Quick references**: This section includes a collection of useful links that relate to Maximo.
- **Meet the author**: Get to know the expert that developed this course.
- **Finish here**: After completing the required activities, get your certificate of completion and complete the course survey.
