IBM TechU SAP HANA on Power Systems

Kód:	DÉLKA:	CENA:
TU00034G	13.04 Hours	Kč bez DPH 8,500.00

Description

This Learning Path covers aspects of running SAP HANA on IBM Power Systems, including What's new, Outlook for the future, Migration, Customer Experiences, Provisioning and Management, HA/DR, financial benefits, Hybrid Cloud Strategy and considerations for Oracle Databases & SAP HANA running in the IBM Cloud.

Cíle

- Gain an insight into what's new in SAP HANA on IBM Power Systems
- Learn about the future outlook for SAP HANA on IBM Power Systems
- Learn how to Migrate SAP HANA to IBM Power Systems
- Gain an insight into HANA Customer Experiences and Performance
- Say Goodbye to Downtime with SUSE solutions for resilient SAP systems
- Learn how to automate SAP System Provisioning and Management
- Learn how to use PowerVC 2.x with SAP HANA on IBM Power focusing on HA/DR
- Learn how to run SAP HANA and SAP S/4HANA in Red Hat OpenShift Containers on IBM Power Systems
- Understand the financial benefits of running SAP HANA on IBM Power Systems in hybrid cloud
- Understand how to leverage SAP HANA on Power in SAP's Hybrid Cloud Strategy
- Gain an IBM insight on SAP HANA in the Marketplace
- Understand considerations for Oracle Database and SAP Workloads on Power Systems Virtual Server on IBM Cloud
- Understand how to leverage SAP NetWeaver and SAP HANA Workload on IBM Power Virtual Servers IaaS

Určeno pro

IBM Power Systems Administrators, Hardware Developers and others interested in learning more about running SAP HANA on IBM Power Systems

Program
