Description

Course MS-101T01-A: Microsoft 365 Security Management

Learn about Microsoft 365 Security Management, including how to manage your security metrics, how to enable Azure AD Identity Protection, how to configure your Microsoft 365 security services, and user Microsoft 365 Threat Intelligence.

Course MS-101T02-A: Microsoft 365 Compliance Management

Learn about Microsoft 365 Compliance Management, including data retention and data loss prevention solutions in Microsoft 365, archiving and retention in Microsoft 365, implementing and managing data governance, and managing search and investigations.

Course MS-101T03-A: Microsoft 365 Device Management

This course introduces you to the world of Microsoft 365 device management - from establishing Microsoft Intune, to enrolling devices to Intune, to monitoring the devices, to controlling what users can do from the enrolled devices by using conditional access policies. If you are already managing devices by using a traditional device management tool such as Configuration Manager, you will be interested to know how you can seamlessly move to modern management, in which devices are managed by Intune, and how you can benefit from new device management capabilities, such as compliance, conditional access, and Windows Autopilot to deploy new devices from the cloud.
