## ONTAP 9.9.1 Cluster Administration and Data Protection Bundle

**Kód:**

NEP\_OT-CLU-DPA 9.9.1

**DÉLKA:**

40 Hours (5 DENNÍ)

**CENA:**

Kč bez DPH 123,750.00

### Description

This 5 day course comprises the following 2 courses.

The 3 day OT-CLU-A 9.9.1 - Cluster Administration plus the 2 day OT-DPA 9.9.1 - Data Protection Administration

The first 3 days uses lecture and hands-on exercises to teach the basic administration tasks of an ONTAP 9.9 cluster. You use the cluster shell and OnCommand System Manager to manage storage and network resources. ONTAP Cluster Administration is an intermediate course in a comprehensive learning path for NetApp customers, partners and employees.

Students spend the final 2 days learning about the different data protection solutions that are integrated into ONTAP software, including the SyncMirror, SnapMirror, storage virtual machine (SVM) disaster recovery, and SnapVault solutions. The course also provides an overview of ONTAP MetroCluster configuration, NDMP, and cloud-based data protection with NetApp Cloud Volumes ONTAP and NetApp Data Availability Services. You also learn about the tools for managing ONTAP data protection features. In the hands-on exercises, you use NetApp OnCommand System Manager and the CLI to complete key data protection tasks.

The course also provides an overview of the ONTAP MetroCluster high-availability and disaster recovery software solution

### Cíle

Manage ONTAP administrators

Configure and manage storage resources

Configure and manage networking resources

Create and configure a storage virtual machine (SVM)

Create and manage FlexVol volumes

Implement storage efficiency features

Create protocol servers within an SVM

Configure basic data protection features

Perform administrative and preventive maintenance tasks

Describe the data protection features in ONTAP software

Configure SnapMirror® relationships for data replication

Demonstrate storage virtual machine disaster recovery (SVM DR)

Explain MetroCluster™ components and configuration

Configure the SnapVault® feature for disk-to-disk backup and recovery

Describe NDMP-enabled operations to back up NAS data to tape storage

Describe the NetApp SnapCenter® software that is used for ONTAP data protection management

Explain cloud-based data protection with NetApp Cloud Volumes ONTAP

### Určeno pro

Network Engineers

Channel Partners

System Engineers

NetApp Customers

### Vstupní znalosti

NA-OCFWBT

NA-ONFWBT

NA-OSFWBT

Completion of the following web based training modules on the NetApp site: NA-ODPFWBT
