VMware Workspace ONE: Extending your AirWatch Deployment to the Digital Workspace

CODE:

VM-WSO-E-AW-DD-WS

LENGTH:

16 Hours (2 days)

PRICE:

\$1,700.00

Description

Course Overview

This two-day course focuses on the basic skills that you need to effectively incorporate Workspace ONE Identity Manager™ with your existing software-as-a-service implementation of Workspace ONE UEM (VMware AirWatch®). The course includes a hands-on component in which you will configure Workspace ONE Identity Manager to sync with Active Directory and Workspace ONE UEM. You will gain the necessary skills to effectively manage the digital workspace, enable SSO for web apps and enable conditional access.

Objectives

Course Objectives

By the end of the course, you should be able to meet the following objectives:

- Identify and describe components of Workspace ONE and complementary software
- Identify authentication technologies used in Workspace ONE
- Install, configure, and validate integrated components
- Configure Workspace ONE registration and activation
- Apply single sign-on and multifactor authentication
- Integrate with virtual desktop infrastructure (VMware Horizon® virtual desktops and applications)
- Apply general troubleshooting techniques

Audience

Target Audience

Workspace ONE administrators, experienced mobility and identity administrators, solutions architects, solutions engineers, sales engineers, and consultants

Prerequisites

Prerequisites

This course has no prerequisites.

Programme

Course Modules

- 1 Course Overview
- 2 Introduction to Workspace ONE
- 3 Workspace ONE Identity Manager Console Overview
- 4 Enterprise Integration
- 5 Integrating VMware Horizon Resources
- 6 Unified Endpoint and Identity Management
- 7 Single Sign-On for Applications
