## Description

In this two-day course, you learn how to apply the fundamental techniques for integrating VMware Workspace ONE® Access™ with VMware Workspace ONE® UEM to securely distribute business-critical applications from any device and configure access management controls. Through a combination of hands-on labs, simulations, and interactive lectures, you configure Workspace ONE Access, enterprise, and productivity integrations. You will leave with a foundational understanding of how Workspace ONE uses various authentication methods and protocols to determine user access permissions and enable single sign-on. Overall, the course lays out the foundational principles of identity and access management.

## Objectives

By the end of the course, you should be able to meet the following objectives:

- Explain the general features and functionality enabled with Workspace ONE Access
- Integrate Workspace ONE UEM with Workspace ONE Access
- Summarize and implement Workspace ONE productivity services into the digital workspace environment.
- Explain the methods for enabling mobile single sign-on for mobile endpoints managed in the digital workspace
- Ready and configure Workspace ONE Access to support SAML 2.0 for federated authentication across the workforce

## Audience

Workspace ONE UEM and Workspace ONE Access operators and administrators, account managers, solutions architects, solutions engineers, sales engineers, and consultants

## Prerequisites

This course requires completion of one of the following courses:

- VMware Workspace ONE: Skills for UEM [21.x]
- VMware Workspace ONE: UEM Bootcamp [21.x]

## Programme

### 1 Course Introduction

- Introductions and course logistics
- Course objectives

### 2 Workspace ONE Access

- Summarize the benefits of Workspace ONE Access
- Outline the core features and functions enabled by Workspace ONE Access
- Navigate the Workspace ONE Access console
- Explain the functions of Directory Integration with Workspace ONE Access
- Explain the various types of authentication protocols enabled by Workspace ONE Access

### 3 Integrating Workspace ONE UEM and Workspace ONE Access

- Explain the rationale for integrating Workspace ONE UEM and Workspace ONE Access
- Outline process of connecting Workspace ONE

#### UEM and Workspace ONE Access

- Examine workflow of integrations
- Summarize the key features of an integrated solution

#### 4 Productivity Integration

- Identify the functions enabled by the Unified Access Gateway (UAG)
- Outline the purpose of the SEG Edge Service
- Explain the features enabled by the VMware Tunnel™ Edge Service
- Summarize the capabilities enabled by the Content Gateway Edge Service

#### 5 SAML 2.0 Authentication

- Outline authentication methods supported by Workspace ONE Access
- Summarize the main properties of SAML protocol
- Summarize the SAML authentication workflow
- Explain application SSO authentication workflow with SAML

#### 6 Mobile Single-Sign On

- Describe the concept of mobile SSO (single signon) concept
- Outline mobile SSO workflows

### Session Dates
