# VMware Carbon Black Cloud Endpoint Standard

<b>CODE:</b>	<b>LENGTH:</b>	<b>PRICE:</b>
VMW_VCBCES	1 day(s)	€750.00

## Description

This one-day course teaches you how to use the VMware Carbon Black Cloud Endpoint™ Standard product and leverage the capabilities to configure and maintain the system according to your organization's security posture and policies. This course provides an in-depth, technical understanding of the product through comprehensive coursework and hands-on scenario-based labs.

## Objectives

By the end of the course, you should be able to meet the following objectives:

- Describe the components and capabilities of VMware Carbon Black Cloud Endpoint Standard
- Identify the architecture and data flows for Carbon Black Cloud Endpoint Standard communication
- Perform searches across endpoint data to discover suspicious behavior
- Manage the Carbon Black Cloud Endpoint Standard rules based on organizational requirements
- Configure rules to address common threats
- Evaluate the impact of rules on endpoints
- Process and respond to alerts
- Describe the different response capabilities available from VMware Carbon Black Cloud™

## Audience

System administrators and security operations personnel, including analysts and managers

## Prerequisites

This course requires completion of the following course:

- VMware Carbon Black Cloud Fundamentals

## Programme
