## Description

This two-day course focuses on deploying, using, and managing VMware vRealize® Log Insight™ product. It provides you with the knowledge and skills to deploy a vRealize Log Insight cluster that meets the monitoring requirements of your environment. This course covers the configuration and use of vRealize Log Insight to collect and manage logs from a variety of VMware and third-party products. This course discusses interfacing vRealize Log Insight with other systems to monitor, troubleshoot, and secure a data center.

## Objectives

By the end of the course, you should be able to meet the following objectives:

- Identify features and benefits of vRealize Log Insight
- Determine the vRealize Log Insight cluster that meets your monitoring requirements
- Describe the vRealize Log Insight architecture and use cases
- Deploy and configure a vRealize Log Insight cluster
- Use the Interactive Analytics tab to get a deep understanding of log data
- Create and manage queries
- Managing vRealize Agents and Agent Groups
- Create various custom dashboards
- Describe and use the vRealize Log Insight widgets
- Extend the capabilities of vRealize Log Insight by adding content packs and configuring solutions

## Audience

Experienced system administrators, system integrators, and developers responsible for designing and implementing vRealize Log Insight

## Prerequisites

System administration experience with VMware vSphere® deployments or completion of one of the following courses:

- VMware vSphere: Install, Configure, Manage [V7]
- VMware vSphere: Optimize and Scale [V7]

## Programme

- 1 Course Introduction
  - Introductions and course logistics
  - Course objectives
- 2 Introduction to vRealize Log Insight
  - Describe a cloud management platform
  - Explain the importance of efficient log management
  - Describe the requirements for a log analytics solution
  - Describe the key benefits of vRealize Log Insight
  - Describe the key features of vRealize Log Insight
  - Describe the various stages of log processing
- 3 vRealize Log Insight Architecture and Deployment
  - Identify the minimum requirements for deploying

## vRealize Log Insight

- Using vRealize Log Insight Sizing Calculator
  - Describe vRealize Log Insight compatibility with other VMware products
  - Describe the vRealize Log Insight architecture
  - Determine the correct vRealize Log Insight deployment for an environment
  - Install the vRealize Log Insight virtual appliance
- ### 4 vRealize Log Insight Queries and Dashboards
- Describe the primary functions of the vRealize Log Insight UI
  - Use the Interactive Analytics tab to get a deep understanding of log data
  - Create and Manage queries
  - Create vRealize Log Insight custom dashboards
  - Describe and use the vRealize Log Insight widgets
- ### 5 Administering vRealize Log Insight
- Describe User Access Control in vRealize Log Insight
  - Describe User Management
  - Access the vRealize Log Insight Administration page
  - Configure vRealize Log Insight settings
  - Manage certificates
  - Configure system notifications
  - Upgrade vRealize Log Insight
  - Describe the vRealize Log Insight Importer
- ### 6 vRealize Log Insight Integrations
- Describe how to integrate vRealize Operations with vRealize Log Insight
  - Describe the advantages of integrating vRealize Operations with vRealize Log Insight
  - Describe the advantages of using the vSAN content pack
  - Install NSX content packs

## Session Dates

On request. Please [Contact Us](#)
