Description

Cena školení je 2 060 EUR a bude přepočtena aktuálním kurzem poslední den kurzu.

Na tomto pětidenním kurzu si získáte dovednosti s řešením běžných problémů, ke kterým dochází v prostředí VMware Horizon®. Vyzkoušíte si na cvičení vyřešit aktuální možné problémy v prostředí. Cvičení odrážejí skutečné scénáře problemů k řešení. Cvičení vás vybaví znalostmi a praktickými dovednostmi pro zvládnutí typických výzev, kterým čelí správci a operátoři virtuálních desktopů, a získáte pokročilé znalosti, dovednosti a schopnosti řešit problémy související s infrastrukturou VMware Horizon® 8. Naučíte se požadované dovednosti a kompetence k řešení problémů VMware Horizon® Connection Server™, VMware Unified Access Gateway™, protokoly, připojení a certifikáty.

Cíle

By the end of the course, you should be able to meet the following objectives:

- Implement a structured approach to troubleshooting
- Resolve common issues that occur in a VMware Horizon environment
- Troubleshoot issues with linked and instant clones
- Configure the Windows client
- Identify the correct log level for gathering logs
- Optimize protocols for best end-user experience
- Discuss Horizon Connection Server advanced configurations
- List troubleshooting techniques for Horizon Connection Server common issues
- Interpret Horizon 8 Connection Server logs
- Identify Unified Access Gateway configuration and certificate issues
- List troubleshooting steps for Unified Access Gateway common issues
- Describe BLAST configuration verification using logs and settings
- Describe BLAST optimization recommendations for different use cases
- Describe Horizon 8 Connections and how to troubleshoot related issues
- Describe Horizon 8 certificates
- List troubleshooting steps for common issues with Horizon 8 certificates
- Leverage Horizon infrastructure troubleshooting steps to resolve issues

Určeno pro

- New or junior administrators and operators; system managers accountable for staffing and training Horizon operators and administrators.
- Experienced system operators, administrators, and integrators responsible for managing and maintaining VMware Horizon solutions.

Vstupní znalosti

- VMware Horizon 8: Deploy and Manage

This course also requires knowledge of the following:

- Using VMware vSphere® Web Client to view the state of virtual machines, datastores, and networks
- Opening a virtual machine console on VMware vCenter Server® and accessing the guest operating system
- Configuring Active Directory services, including DNS, DHCP, and time synchronization
- Restricting user activities by implementing Group Policy objects
- Configuring Windows systems to enable Remote Desktop Connections
- Building an ODBC connection to an SQL Server database
