# IBM Cognos Report Studio Author Professional Reports Fundamentals (V10.2)

<b>CODE:</b>	<b>LENGTH:</b>	<b>PRICE:</b>
ZL1_B5258	3 day(s)	Ft429,000.00

## Description

Course materials for this course are available in:

- English
- Spanish (Latin America)
- Portuguese (Brazil)

The course image is available in English only.

For the fully translated French course (materials and image), see *IBM Cognos Report Studio: Création de rapports-Essentielles V10.2 (Web) Français (J22F8)*.

For the fully translated German course (materials and image), see *IBM Cognos Report Studio: Berichtserstellung, Grundlagen V10.2 SPVC (J22G8)*.

IBM Cognos Report Studio: Author Professional Reports Fundamentals (V10.2) is a three-day, instructor-led course. It is designed for professional report authors to learn report building techniques using relational data models, and methods of enhancing, customizing, and managing professional reports. Attendees will participate in hands-on demos and workshops that illustrate key concepts while learning how to use the product.

## Objectives

Please refer to Course Overview for description information.

## Audience

This intermediate course is intended for Professional Report Authors.

## Prerequisites

This offering is intended for professional report authors who have a knowledge of their business requirements, experience using the Windows OS **and** a web browser, **and** have also taken the IBM Cognos BI for Consumers (10.2) WBT.

## Programme

### Overview of IBM Cognos BI

- Describe IBM Cognos BI and Financial Performance Management
- Describe IBM Cognos BI components
- Describe IBM Cognos BI architecture at a high level
- Define IBM Cognos groups and roles
- Explain how to extend IBM Cognos

### Introduction to the Reporting Application

- Examine Report Studio and its interface
- Explore different report types
- Create a simple, sorted, and formatted report
- Explore how data items are added to queries

### Create List Reports

- Format, group, and sort list reports
- Describe options for aggregating data
- Create a multi-fact query
- Create a report with repeated data

### **Focus Reports Using Filters**

- Create filters to narrow the focus of reports
- Examine detail and summary filters
- Determine when to apply filters on aggregate data

### **Create Crosstab Reports**

- Format and sort crosstab reports
- Convert a list to a crosstab
- Create crosstabs using unrelated data items
- Create complex crosstabs using drag and drop functionality

### **Present Data Graphically**

- Create charts containing peer and nested items
- Add context to charts
- Create and reuse custom chart palettes
- Present key data in a single dashboard report

### **Focus Reports Using Prompts**

- Identify various prompt types
- Use parameters and prompts to focus data
- Search for prompt items
- Customize prompts to facilitate users' choices
- Navigate between pages
- Display users' prompt selections in the report

### **Extend Reports Using Calculations**

- Create calculations based on data in the data source
- Add run-time information to the reports
- Create expressions using functions

### **Present Data Using Maps**

- Present data using map reports
- Navigate to another level within a map

### **Use Additional Report Building Techniques**

- Reuse objects within the same report
- Share layout components among separate reports
- Discuss report templates
- Add pages to a report
- Choose options to handle reports with no available data

### **Customize Reports with Conditional Formatting**

- Create multi-lingual reports
- Highlight exceptional data
- Show and hide data
- Conditionally render objects in reports

### **Drill-Through From One Report to Another**

- Let users navigate from a specific report to a target report
- Pass parameter values to filter the data in drill-through targets

### **Drill-through Definitions**

- Enable users to navigate to related data in IBM Cognos BI
- Parameter-driven drill through vs. dynamic drill through
- Steps to enable drill-through access for a package
- Limit the items that users can drill through from (set scope)

- Set a measure as the scope
- Drill Through Assistant

### **Enhance Report Layout**

- Force page breaks in reports
- Modify existing report structures
- Apply horizontal formatting
- Specify print options for PDF reports
- Combine data containers displaying data from different queries
- Format data and report objects

### **Further Information**

Prior to enrolling, IBM Employees must follow their Division/Department processes to obtain approval to attend this public training class. Failure to follow Division/Department approval processes may result in the IBM Employee being personally responsible for the class charges.

GBS practitioners that use the EViTA system for requesting external training should use that same process for this course. Go to the EViTA site to start this process: <http://w3.ibm.com/services/gbs/evita/BCSVTEnr1.nsf>

Once you enroll in a GTP class, you will receive a confirmation letter that should show:

- The current GTP list price
- The 20% discounted price available to IBMers. This is the price you will be invoiced for the class.

### **Session Dates**

Ved forespørrel. [Vennligst kontakt oss](#)

### **További információ**

[Ez a képzés helyszíni képzésként is elérhető. Kérjük, forduljon hozzánk további információért.](#)
