## VMware Customer Connect Learning Premium Subscription

| CODE:    | LENGTH:    | PRICE:  |
|----------|------------|---------|
| VMW_VLZP | 2920 Hours | £205.00 |

### Description

The VMware Customer Connect Learning™ Premium Subscription gives you a full year of 24/7 cloud-based access to VMware's digital training hub for technical professionals using VMware products and solutions.

The Premium Subscription includes access to all Basic Subscription content including monthly updates, as well as access to Premium content including all of VMware Exam Preps.

Get just-in-time mastery-level instruction focused on effective workflows, best-practices, and common scenarios and issues including advanced configuration techniques, troubleshooting, and tips for those managing highly complex VMware environments. Build on your existing knowledge and keep your skills current through new content added monthly from top VMware experts.

Premium Subscription Includes\*:

- All Basic Subscription content
- All VMware Exam Preps
- NEW VMware Certified Technical Associate training content

#### Benefits

- Access to the entire Basic Subscription content library with over 65 self-paced training titles and over 1300 technical videos from VMware experts and instructors that go beyond basic product installation and administration and help experienced users optimize VMware products and solutions
- PLUS access to all Certification Exam Preps (over 650 videos with a comprehensive review of exam objectives). You can review the latest technical content and get help to prepare for VMware's certification exams, including our VMware Certified Professional (VCP) and VMware Certified Advanced Professional (VCAP) exams.
- PLUS access to NEW training content associated with VMware Certified Technical Associate (VCTA) certification level. VCTA is a new credential offered by VMware that validates the skills and knowledge required by candidates performing operational tasks within a virtualized infrastructure, in areas across multi-cloud operations, networking, security, and device management. The training and exam content is targeted for entry-level operators.
