## StorageGRID Administration

| Kód:          | DÉLKA:             | CENA:                |
|---------------|--------------------|----------------------|
| NEP_SG-WS-ADM | 24 Hours (3 DENNÍ) | Kč bez DPH 74,600.00 |

### Description

Školení je vedené virtuálně v angličtině. Cena kurzu je 2 475 GBP a bude přepočtena aktuálním kurzem poslední den školení. This course is a comprehensive analysis of NetApp® StorageGRID® administration. You learn how to configure, monitor, maintain, and expand a StorageGRID system. The course outlines the new features and enhancements in StorageGRID 11.6. The course materials include a guide for hands-on exercises that you perform in a lab environment. This course also builds on the concepts that you learned in StorageGRID Fundamentals and is complementary to Installing StorageGRID.

### Cíle

This course focuses on enabling you to do the following:

- Use the StorageGRID Grid Manager to monitor and manage a StorageGRID object-based storage solution
- Create and manage storage tenant accounts, groups, and users
- Configure information lifecycle management (ILM) rules and policies
- Control access to the StorageGRID system and implement service levels
- Manage Simple Storage Service (S3) buckets and objects
- Monitor StorageGRID system activity
- Configure and manage email notifications and custom alerts
- Integrate the StorageGRID solution into your data fabric

### Určeno pro

Storage Administrators  
Professional Services Personnel  
Support Services Personnel

### Vstupní znalosti

The Web Based Training course StorageGRID Webscale Fundamentals is recommended. This is free of charge and provided by NetApp.

### Program

|                                  |                        |
|----------------------------------|------------------------|
| About the StorageGRID curriculum | StorageGRID components |
| About this course                | Node service workflows |
| Course agenda                    |                        |

Module 0: Welcome Module 1: StorageGRID Components and Services Module 2: StorageGRID management

|                                   |                        |
|-----------------------------------|------------------------|
| Grid manager                      | Tenant Accounts        |
| StorageGRID Configuration options | Tenant Manager         |
| StorageGRID Administrators        | Tenant Access Control  |
| Securing Access to StorageGRID    | Bucket Access Control  |
| StorageGRID Management API        | StorageGRID tenant API |

ILM Policies and Rules  
Storage pools, Storage Grades and Regions

Module 3: Storage Tenant Administration Module 4: Information Lifecycle Management Configuring ILM policies

High-availability groups  
Load balancer endpoints  
Traffic classification

Virtual hosted-style identifiers  
Bucket access control  
S3 bucket configuration options  
Client stored object options  
Platform services

Module 5: Managing Client Connections Module 6: S3 bucket administration Module 7: Monitoring the StorageGRID system

Alerts  
Audit log  
Reporting  
StorageGRID AutoSupport  
Managing StorageGRID services  
Maintenance procedures  
StorageGRID software upgrades

ONTAP FabricPool  
SolidFire backup to cloud  
SANtricity Cloud Connector

Module 8: StorageGRID maintenance Module 9: Integrating a StorageGRID system NetApp Cloud Sync service

## Zkoušky a certifikace

This course is part of the NetApp Certified Hybrid Cloud Administrator certification programme

## Termíny školení

| Datum       | Místo konání      | Časové pásmo | Jazyk   | Typ                   | Garance termínu | CENA                    |
