StorageGRID Administration

Kód:	DÉLKA:	CENA:
NEP_SG-WS-ADM	24 Hours (3 dní)	Kč 74,600.00

Description

Školení je vedené virtuálně v angličtině. Cena kurzu je 2 475 GBP a bude přepočtena aktuálním kurzem poslední den školení. This course is a comprehensive analysis of NetApp® StorageGRID® administration. You learn how to configure, monitor, maintain, and expand a StorageGRID system. The course outlines the new features and enhancements in StorageGRID 11.6. The course materials include a guide for hands-on exercises that you perform in a lab environment. This course also builds on the concepts that you learned in StorageGRID Fundamentals and is complementary to Installing StorageGRID.

Cíle

This course focuses on enabling you to do the following:

- Use the StorageGRID Grid Manager to monitor and manage a StorageGRID object-based storage solution
- Create and manage storage tenant accounts, groups, and users
- Configure information lifecycle management (ILM) rules and policies
- Control access to the StorageGRID system and implement service levels
- Manage Simple Storage Service (S3) buckets and objects
- Monitor StorageGRID system activity
- Configure and manage email notifications and custom alerts
- Integrate the StorageGRID solution into your data fabric

Určeno pro

Storage Administrators
Professional Services Personnel
Support Services Personnel

Vstupní znalosti

The Web Based Training course StorageGRID Webscale Fundamentals is recommended. This is free of charge and provided by NetApp.

Program

About the StorageGRID curriculum	StorageGRID components
About this course	Node service workflows
Course agenda	

Module 0: Welcome Module 1: StorageGRID Components and Services Module 2: StorageGRID management

Grid manager	Tenant Accounts
StorageGRID Configuration options	Tenant Manager
StorageGRID Administrators	Tenant Access Control
Securing Access to StorageGRID	Bucket Access Control
StorageGRID Management API	StorageGRID tenant API

ILM Policies and Rules
Storage pools, Storage Grades and Regions

Module 3: Storage Tenant Administration Module 4: Information Lifecycle Management Configuring ILM policies

High-availability groups
Load balancer endpoints
Traffic classification

Virtual hosted-style identifiers
Bucket access control
S3 bucket configuration options
Client stored object options
Platform services

Module 5: Managing Client Connections Module 6: S3 bucket administration Module 7: Monitoring the StorageGRID system

Alerts
Audit log
Reporting

StorageGRID AutoSupport
Managing StorageGRID services
Maintenance procedures
StorageGRID software upgrades

ONTAP FabricPool
SolidFire backup to cloud
SANtricity Cloud Connector
NetApp Cloud Sync service

Module 8: StorageGRID maintenance Module 9: Integrating a StorageGRID system

Zkoušky a certifikace

This course is part of the NetApp Certified Hybrid Cloud Administrator certification programme
