Description

In this four-day course, you learn about the advanced VMware Workspace ONE[®] use cases and integrations. The course also addresses the industry standard authentication protocol and technologies that can be integrated with Workspace ONE. Through a combination of hands-on labs, simulations, and interactive lectures, you identify and configure various authentication methods and scenarios, integrations with third-party solutions and identity providers, advanced Workspace ONE component configurations, and VMware Horizon[®] configurations. The principles of advanced identity and access management are addressed throughout the course.

You will leave the training empowered with the professional-level skills and knowledge needed to effectively implement the advanced Workspace ONE integrations to bring the Digital Workspace implementation to the next level.

Product Alignment

- VMware Workspace ONE[®] 20.x
- VMware Workspace ONE UEM 20.x
- VMware Workspace ONE Access[®] 20.x
- VMware Horizon 7.x
- VMware Unified Access Gateway[™] 3.x

Inhalt

Nach Abschluss dieses Seminars haben die Teilnehmer Wissen zu folgenden Themen:

- Outline the authentication methods supported by Workspace ONE
- Describe the workflow of various supported authentication methods
- Describe the benefits of using Mobile SSO
- Outline the workflow of iOS and Android Mobile SSO
- Configure Mobile SSO for iOS and Android native applications
- Configure Single Sign-On for web applications
- Integrate Office 365 with Workspace ONE to leverage SSO
- Outline the steps of integrating Azure AD as a 3rd-party identity provider for Workspace ONE
- Describe the benefits of integrating Okta with Workspace ONE
- Outline the steps of integrating Okta as the identity provider and a service provider
- Identify additional 3rd party identity providers
- Outline the steps of integrating with AD FS
- Outline the steps of integrating with PING
- Identify advanced Workspace ONE use cases
- Describe the workflow of UAG identity bridging
- Outline the steps of incorporating IP restrictions into Conditional Access
- Describe the workflow of identity provider chaining
- Summarize the benefits of using VMware Workspace ONE[®] AirLift[™]
- Outline the workflow of co-managing Windows 10 endpoints with Workspace ONE AirLift
- Describe the benefits of integrating VMware Horizon with Workspace ONE
