Power Platform - App in a Day

CODE:	LENGTH:	PRICE:
MCS_WS-RDPBIAPP	1 day(s)	Request Price

Description

This one-day instructor-led workshop covers the capabilities of the Microsoft Business Application Platform technologies – Power Apps, Power Automate and Dataverse. With Power Apps, you will enable power-users in line of business roles to easily build and deploy custom business apps in both Canvas and Model-driven style of apps. With Dataverse, you can easily bring your data together and quickly create powerful apps using a compliant and scalable data service and app platform integrated right into Power Apps. Finally, with Power Automate as your business service, your line of business specialists and IT pros can build automated workflows intuitively.

Objectives

At the end of the training, you will be able to: - Create simple custom business applications without writing code.
- Learn how to build sophisticated business processes and complex data relationships within your applications.
- Learn how to connect your app to a variety of data sources to bring it to life. - Share your apps inside your organization securely....”

Audience

This one-day workshop is intended for anyone in any organization who can use Excel and who needs to have apps or automation for themselves or their organization.
