## Description

This course covers the basics of StorageGRID administration. You learn to use the Grid Manager to monitor and manage a StorageGRID 11.2 system. You learn to create and manage storage tenant accounts and users. You also learn how to configure information lifecycle management (ILM) rules and policies to manage object protection. You configure the StorageGRID NAS Bridge node for integration with legacy applications. You configure a StorageGRID Archive node to integrate an external archive storage system. Finally, you learn how to integrate a StorageGRID system into the NetApp Data Fabric. This course builds on the concepts in the StorageGRID Fundamentals course.

## Objectives
