Introduction to Splunk Log Observer

CODE:	LÄNGE:	PREIS:
SPL_ITSLO	0.32 Hours (0.04 Tage)	Free

Description

This course will give you an overview of Splunk Log Observer. It describes the relationship between metrics, traces, and logs, discusses use cases for Splunk Log Observer, and how to send log data to Splunk Log Observer. It also discusses basic Log Observer concepts such as filtering and browsing log messages, finding trends in log data through aggregation functions, and facilitating team collaboration through saved queries. You will see examples of how to navigate Splunk Log Observer and how to use Log Observer for root cause analysis.
