IBM TRIRIGA Facilities and Space Management

CODE: **DURÉE:** **PRIX H.T.:**

ODC8075G 24 Hours €1,290.00

Description

Students taking this course will understand the fundamentals of space management and why it is a strategic imperative to large enterprises. ♦ They will understand both the concepts and configuration in TRIRIGA for how space classifications are created in building portfolios across floors and various types of space. ♦ Students will learn the details of space data, assessments and space audits. ♦ Further, students will understand Perceptive Apps for stacking and move requests. They will learn how to import CAD drawings and BIM models to TRIRIGA. They will also be introduced to new ♦ features in TRIRIGA for Dynamic Space Planning

Objectifs

After completing this course, the student should be able to perform the following tasks:

- Create and Manage Spaces
- Associate Spaces to People and Assets
- Allocate Spaces to Organizations and manage Occupancy and Chargeback calculations
- Assess and adjust space utilization
- Plan and Manage moving People and Assets across locations
- Utilize CAD and BIM model floor plans to manage and view location data
- Plan and review various space Scenarios

Audience

The typical student for this course may be a space planner, space strategist or business analyst in Corporate Real Estate with a large enterprise. ♦ Also, consultants, systems integrators and IT architects may take this course as well
