# AIX I: IBM PowerVM Logical Partition Management (Digital Course)

**Kod:**           **Czas trwania:**       **Cena netto:**

AN11DG       8 Hours                       zł1,500.00

## Description

This course introduces system administration concepts in an IBM Power environment. Learn about the features of IBM PowerVM, our hypervisor, and how to start configuring and managing Logical Partitions (LPARs) for AIX using the Hardware Management Console (HMC).

This course will help anyone who wants to use LPARs on IBM Power.

## Cel szkolenia

- Describe essential concepts that are associated with managing POWER processor-based systems, such as logical partitioning, dynamic partitioning, virtual processors, virtual consoles, and shared processors
- Describe the functions provided by the HMC
- Configure and manage LPARs by using the HMC graphical user interface (GUI) and HMC commands
- Power on and power off the Power Systems server

## Uczestnicy

Enrollment in this course is not restricted. Typical students may include:

- Customers
- Technical IBM personnel
- Business Partner technical personnel
- IT consultants and architects

## Wymagania wstępne

This introductory course does not require any logical partitioning experience. General TCP/IP knowledge is strongly recommended.

## Program szkolenia

Unit 1: Introduction to PowerVM logical partitioning  
Unit 2: Using the HMC to manage servers and partitions  
Unit 3: Basic LPAR operations  
Unit 4: Power processor and memory virtualization  
Unit 5: Power I/O resources  
Unit 6: Logical partition management  
Demo: Logical partition management

## Terminy

Data	Lokalizacja	Strefa czasowa	Język	Typ szkolenia	Gwarancja	Cena netto
10 Aug 2024			English	Web based Training		zł1,500.00
