Essentials of IBM DOORS Next

Kod: **Czas trwania:** **Cena netto:**

ODC8100G 8 Hours zł1,500.00

Description

This course teaches analysts and engineers how to define, elaborate, organize, and manage textual and graphical requirements and requirements-related information in IBM DOORS Next Generation v7. DOORS Next Generation is a key component of the IBM Engineering Lifecycle Management (ELM). The product provides requirements definition and management capabilities in a fully-integrated environment that can also include IBM Rational Team Concert for change and configuration management, and IBM® Rational Quality Manager for quality management.

Cel szkolenia

Upon completion of this course the student will be able to:

- Define, elaborate, organize and manage requirements in DOORS Next
- View and work with requirements and other artifacts in a collaborative context
- Create and edit requirements documents and other artifacts, including both textual and graphical artifacts
- Create, manage, and view traceability relationships between requirements and other artifacts
