Red Hat OpenStack Administration

CODE: REH_CL210 **DURÉE:** 40 Hours (5 Jours) **PRIX H.T.:** €2,800.00

Description

This course is designed for system administrators who are intending to implement a cloud computing environment using OpenStack. Students will learn how to install, configure, use, and maintain Red Hat OpenStack Platform. This course will also begin the transition from administering OpenStack using Horizon to using the unified command-line interface. Exam competencies covered in the course include: install and configure Red Hat OpenStack Platform (using OSP director), manage users, projects, flavors, roles, images, networking, and block storage, automation (scale-out and scale-back), and build a customized image.

Objectifs

The goal of this course will be managing OpenStack using the unified command-line interface, managing instances, and installing an advanced proof of concept

Audience

Cloud Administrators / Cloud Operators / System Administrators

Prérequis

- Red Hat Certified System Administrator (RHCSA in RHEL) certification or equivalent experience
- Red Hat OpenStack Administration I (CL110) course or equivalent experience
