# Trend Micro Control Manager

<b>CODE:</b>	<b>LENGTH:</b>	<b>PRICE:</b>
TRM_TMCM	1 day(s)	€750.00

## Description

In this certified course, you will learn how to use Trend Micro™ Control Manager. This course provides information about the basic architecture, deployment scenarios, installation, configuration, and administration options, and troubleshooting details that an administrator needs to know for successful implementation and long-term maintenance.

## Audience

The individuals who will typically benefit the most include:

- System administrators
- Network engineers
- Support Engineers
- Integration Engineers
- Solution & Security Architects

## Prerequisites

Before you take this course, Trend Micro recommends that you have a working knowledge of their products and services, as well as basic networking concepts and principles.

You should also have a working knowledge of the following products:

- Windows 2003 / 2008 / 2012 / 7 / 8 servers and clients
- Firewalls, WAFs, Packet Inspection devices
- General understanding of malware
