IBM Case Manager Essentials (V5.3.2) SPVC

Kód:	DÉLKA:	CENA:
F2909G	8 Hours	Kč bez DPH 12,780.00

Description

Contains PDF course guide, as well as a lab environment where students can work through demonstrations and exercises at their own pace.

This course is an introduction to IBM Case Manager, concepts, functions, and architecture. Participants use an IBM Case Manager system to practice the skills that are required by case workers to process cases and create runtime tasks.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. http://www.ibm.com/training/terms

Cíle

Describe the users of IBM Case Manager Identify components of IBM Case Manager Create and process a case Search for a case Review a case Add annotations and comments to a case Split a case Explore and identify the structure of a solution Add a custom task Add a quick task Identify IBM Case Manager integration options

Určeno pro
