# IBM Engineering Lifecycle Management for Quality Professionals

CODE:	LENGTH:	PRICE:
ODC8125G	20 Hours	kr 4,290.00

## Description

This course bundle provides access to self-paced training pulled from the DOORS Next, Engineering Workflow Management, and Engineering Test Management courses. This bundle is designed to provide quality professionals with the necessary skills to navigate and understand common components of the ELM platform appropriate for this role. The course also contains exercises mirroring the instructor-led version and are performed in a simulated environment that does not require connection or access to a live system which provides extreme flexibility in taking the course.

## Objectives

After completing this course you should be able to:

- Understand Engineering Lifecycle Management
- Understand the role of DOORS Next
- Organize requirements
- Develop a test plan
- Define schedules, test environments, and lab resources
- Develop a test case and a test script
- Create a test suite
- Run tests

## Audience

This course is for:

- Test managers
- Test leads
- Quality managers
- Project managers, business analysts, or testers who need to understand how to plan and manage a test effort with Engineering Test Management

## Prerequisites

- Familiarity with the Microsoft Windows operating system
- Familiarity with applications for the Microsoft Windows operating system
- Familiarity with Web browsers

## Programme

Unit 1 - Introduction  
Unit 2 - The Basics of DOORS Next  
Unit 3 - The Basics of Engineering Workflow Management  
Unit 4 - Engineering Test Management  
Unit 5 - ETM Planning  
Unit 6 - Test Plans  
Unit 7 - Test Cases and Test Suites  
Unit 8 - Test Scripts  
Unit 9 - Test Execution

## Session Dates
