## Essentials of IBM DOORS Next

CODE:	LENGTH:	PRICE:
ODC8100G	8 Hours	kr2,955.00

### Description

This course teaches analysts and engineers how to define, elaborate, organize, and manage textual and graphical requirements and requirements-related information in IBM DOORS Next Generation v7. DOORS Next Generation is a key component of the IBM Engineering Lifecycle Management (ELM). The product provides requirements definition and management capabilities in a fully-integrated environment that can also include IBM Rational Team Concert for change and configuration management, and IBM Rational Quality Manager for quality management.

### Objectives

Upon completion of this course the student will be able to:

- Define, elaborate, organize and manage requirements in DOORS Next
- View and work with requirements and other artifacts in a collaborative context
- Create and edit requirements documents and other artifacts, including both textual and graphical artifacts
- Create, manage, and view traceability relationships between requirements and other artifacts

### Audience

Business Analyst, Systems Engineer, Software Engineer, Requirements Engineer, Requirements Manager, Requirements Team Leader

### Prerequisites

No pre-requisites for this course.
