Sterling Order Management Practice Environment

CODE:	LENGTH:	PRICE:
6F133G	2 Hours	€270.00

Description

The IBM Sterling Order Management Practice Environment encourages learners to navigate through the user interfaces (UI), practice custom configurations, and experiment with the features of the out-of-the-box product.��
�
The practice environment is a live environment where you can try out custom scenarios, test, and apply your product knowledge to address real-world business challenges.
�
The environment includes a few hands-on exercises to enable you to start using the practice environment. The step-by-step instructions in the exercises will help learners get comfortable with the Sterling Order Management application.

Objectives

By the end of the course, learners should be able to:��

- Locate an enterprise after launching the Applications Manager�
- Create child organizations and departments�
- Create a user group and team�
- Create a custom condition
- Create a catalog, category, and item using IBM Sterling Business Center�
- Perform inventory adjustment�
- Create an on-hand inventory monitor

Audience

Developers, implementers, business users, system administrators, and technical architects�

Prerequisites

Before you take this course, you should complete some of the IBM Sterling Order Management-based courses and be confident working in working with the application.

Programme

- Get started
- Access the practice environment
- Complete the exercises
- Watch the exercise demonstrations
