VMware and Microsoft Cloud-Bundle

CODE:	LENGTH:	PRICE:
MCS_CVBVMW	72 Hours (9 days)	kr50,000.00

Description

This bundle contains the following vendor-courses:
VMW_VSICM67 - VMware vSphere: Install Configure Manage [V6.7] & AZ-103: Microsoft Azure Administrator

Programme

Content of VMW_VSICM67:

• Describe the software-defined data center
• Explain the vSphere components and their function in the infrastructure
• Add ESXi hosts to a VMware vCenter® Server Appliance™ instance
• Manage vCenter Server Appliance
• Use a local content library as an ISO store, and deploy a virtual machine
• Describe vCenter Server architecture
• Use vCenter Server to manage an ESXi host
• Configure and manage vSphere infrastructure with VMware Host Client™ and VMware vSphere® Client™
• Describe virtual networks with vSphere standard switches
• Configure standard switch policies
• Use vCenter Server to manage various types of host storage: VMware vSphere® VMFS, NFS, iSCSI, and RDM
• Examine the features and functions of Fibre Channel and VMware vSAN™
• Manage virtual machines, templates, clones, and snapshots
• Migrate virtual machines with VMware vSphere® vMotion®
• Migrate virtual machine storage with VMware vSphere® Storage vMotion®
• Monitor resource usage, and manage resource pools
• Discuss the VMware vSphere® High Availability (vSphere HA) cluster architecture
• Configure vSphere HA
• Manage vSphere HA and VMware vSphere® Fault Tolerance
• Use VMware vSphere® Replication™ and VMware vSphere® Data Protection™ to replicate virtual machines and perform data recovery
• Use VMware vSphere® Distributed Resource Scheduler™ clusters to improve host scalability
• Use VMware vSphere® Update Manager™ to apply patches and perform basic troubleshooting of ESXi hosts, virtual machines, and vCenter Server operations
• Identify troubleshooting methodology to logically diagnose faults and improve troubleshooting efficiency

Content of AZ-103:

• Azure Administration
• Azure Virtual Machines
• Azure Storage
• Virtual Networking
• Intersite Connectivity
• Monitoring
• Data Protection
• Network Traffic Management
• Azure Active Directory
• Securing Identities
• Governance and Compliance
• Data Services

Test and Certification

VMware:
The course prepares for the certification: “VMware Certified Professional - Data Center Virtualization 2019” (VCP-DCV 2019)

(Exam: 2V0-01.19 & 2V0-21.19)
Microsoft:
Recommended course to prepare for the certification: “Microsoft Certified Azure Administrator Associate” (MCAAA)

(Exam AZ-103).
Appropriate exam vouchers will be delivered to each course.

Further Information

Our bundle contains the following benefits:
• E-BOOK – official digital courseware for both courses
• 3 exam voucher
• Please consider that this bundle consists of two seperate vendor courses (VMW_VSICM67 & MCS_AZ103).
