Symantec Web Protection - Cloud SWG Planning, Implementation, and Administration R1

Kód:	DÉLKA:	CENA:
SYM_000208	16 Hours (2 DENNÍ)	Kč bez DPH 22,000.00

Description

The Symantec Web Protection - Cloud SWG Planning, Implementation, and Administration course is intended for IT professionals who will be planning, installing, configuring or administering the Symantec Cloud Secure Web Gateway.

Cíle

By the completion of this course, you will be able to:

Describe the architecture, components and process flow of Cloud SWG

Identify installation, configuration and administration of the core features and products of Cloud SWG.

Identify the key elements for planning a Cloud SWG deployment

Vstupní znalosti

Working knowledge of cloud based solutions

Knowledge of internet traffic protocols

Basic understanding of principles of authentication

Program

What is Cloud Delivered Security

What are the Key Considerations for Having Cloud Delivered Security

Module 1: Cloud Delivered Security What are the Key Features Needed for Cloud Delivered Security

Module 2: Cloud SWG Connection Architecture and Functionality Module 3: Getting Started with Cloud SWG

Cloud SWG Infrastructure Initial Registration

Cloud SWG Connection Architecture User Administration

Cloud SWG Features Licensing

Cloud SWG Additional Products Data Privacy Settings

Module 4: Enable Remote Users to Securely Access the Internet

Remote Users and Solutions

WSS Agent Access Method

Web and Cloud Access Protection Access Method

Cloud Connect Defense (CCD) Access

Module 5: Provide Safe and Proper Web Usage Based on User Identity

Authentication and Cloud SWG

Auth Connector

SAML

Remote Authentication Methods with Auth Connector

Authentication with WSS Agent and Web and Cloud Access Protection Access Methods

Module 6: Create a more Effective Work Environment for Employee Web Usage

Configure Content Filtering Rules to Determine

Internet Usage

Setting Global Content Filtering Policy Rules

Creating Custom Response Pages

Universal Policy Enforcement

Module 7: Providing Web Protection Against Malware	Module 8: Enable Encrypted Traffic Inspection
Cloud SWG Threat Protection	Encrypted Traffic
Malware Analysis and Cloud SWG	SSL Configuration
Threat Protection Policies	Configuring SSL Exceptions
Creating Threat Protection Policy Rules	Topic Title
Module 9: Enable Corporate Users to Securely Access the Internet	
Firewall/VPN (IPsec) Access Method	
FQDN-IKEv2 Firewall Access Method	
TransProxy (Explicit Proxy Over IPsec) Access Method	
Proxy Forwarding Access Method	
Module 10: Identify Web Usage and Security Statistics with Reports	
Reports Overview	
Pre-defined Reports	
Simple Reporting	
Custom Reporting	
Forensic Reporting	
Managing and Using Reports	
Module 11: Enable Mobile Users to Securely Access the Internet	Module 12: Planning Cloud SWG Deployments
About Mobile Device Security	Assessment of Needs
Authentication for Mobile Users	Design – Access Methods and Authentication
SEP-Mobile Solution	Design – Policy, Reporting and Threat Protection
Android Mobile Access Enrollment Process	Design Evaluation

Zkoušky a certifikace

Exam 250-554: Administration of Symantec Web Security Service – R1.2
