PL-600T00: Microsoft Power Platform Solution Architect

Kod:	Czas trwania:	Cena netto:
MCS_PL-600T00	24 Hours (3 days)	zł3,850.00

Description

The Solution Architect is responsible for the successful design, implementation, deployment and adoption of an overall solution. The Solution Architect ensures that the solution meets the customer's needs now and in the future. In this course, students will learn about decisions a Solution Architect makes during an implementation, covering security, integrations, Power Apps architecture, Power Automate architecture, and more. This course is designed to give you an introduction to the Solution Architect role.

Uczestnicy

Senior Consultants (both functional and technical) that aspire to be Solution Architects, or current Solution Architects that are new to the role.

Program szkolenia

Module 1: Becoming a Solution Architect/Getting to know your customer

- Lessons
- Define a Solution Architect
- Role of a Solution Architect on projects
- Project Methodology
- Getting to know your customer
- Group exercise - Getting to know your customer

Module 2: Conceptualizing the design from requirements

- Lessons
- How to lead the requirement collection effort
- Using fit gap analysis
- Pillars of good architecture
- Blueprinting the solution architecture
- Group exercise - Design from requirements

Module 3: Project governance and working as a team

- Lessons
- Solution Architect's role in project governance
- Techniques for keeping a project on track
- Scenarios that could cause a project to fail
- Group exercise - Project governance and working as a team

Module 4: Microsoft Power Platform Architecture

- Lessons
- Key Microsoft Power Platform architecture components
- Understand how platform design and limits influence solution architectures
- Updates and feature releases
- Understand how to communicate how the platform meets customer needs

Module 5: Data Modeling

- Lessons
- Data model influences
- Data model strategy
- Data types
- Data relationships
- Group exercise - Data modeling

Module 6: Analytics and artificial intelligence Module 7: Power Apps Architecture

- | | |
|--------------------------------------|---|
| Lessons | Lessons |
| Planning and evaluating requirements | Discuss options for apps and how to choose where to start |
| Operational reporting | Discuss app composition options |
| Power BI | Using components as part of your app architecture |
| Enterprise BI | Considerations for including Portals as an app in your architecture |
| Pre-built insights and custom AI | Group exercise - Power Apps Architecture topics |

Module 8: Application Lifecycle Management (ALM)

Lessons

Microsoft vision and Solution Architect's role in ALM

Environment strategies

Defining a solution structure for your deliverable

Lab : ALM Hands-on Lab

Module 9: Power Automate Architecture

Lessons

Discuss options for automation and custom logic

Review considerations for using triggers and common actions

Explore using Business Process Flows (BPF) to guide users through business processes

Group Exercise - Evaluate scenarios for Power Automate usage

Module 10: Security Modeling

Lessons

Solution Architect's role in security modeling

Discovery and learning your client's environment

Controlling access to environments and resources

Controlling access to CDS Data

Group Exercise - Security Modeling

Module 11: Integration

Lessons

Solution Architects role in Integrations

What is an integration and why do we need it

Platform features that enable integration

CDS Event Publishing

Scenarios for group discussion

Module 12: Dynamics 365 Applications Architecture

Lessons

Solution Architect's role when deploying Dynamics 365 apps

Architecture Considerations for primary apps

Group Exercise - App specific working groups evaluate requirements

Module 13: Power Virtual Agents architecture

Lessons

Introduction

Chatbot options

Chatbot concepts

Best practices

Integrate chatbots

Power Virtual Agents in Microsoft Teams

Module 14: Robotic Process Automation

Lessons

Introduction

Power Automate Desktop

Recording and editing tasks

Running desktop flows

Process advisor

Module 15: Testing and Go Live

Lessons

Solution Architect's role with testing and go live

Planning for testing

Planning for go live
