Basic understanding of principles of authentication.

## Inhalt

Module 1: Cloud Delivered Security What is Cloud Delivered Security  
What are the Key Considerations for Having Cloud Delivered Security  
What are the Key Features Needed for Cloud Delivered Security  
Module 2: Web Security Service Connection Architecture and Functionality WSS Infrastructure WSS Connection Architecture  
WSS Features WSS Additional Products Module 3: Getting Started with WSS Initial Registration User Administration Licensing  
Data Privacy Settings Module 4: Enable Remote Users to Securely Access the Internet Remote Users and Solutions  
WSS Agent Access Method WSS-SEP Access Method Cloud Connect Defense (CCD) Access  
Module 5: Provide Safe and Proper Web Usage Based on User Identity Authentication and WSS Auth Connector SAML  
Remote Authentication Methods with Auth Connector Authentication with WSS Agent and WSS-SEP Access Methods  
Module 6: Create a more Effective Work Environment for Employee Web Usage  
Configure Content Filtering Rules to Determine Internet Usage Setting Global Content Filtering Policy Rules  
Creating Custom Response Pages Universal Policy Enforcement Module 7: Providing Web Protection Against Malware  
WSS Threat Protection Malware Analysis and WSS Threat Protection Policies Creating Threat Protection Policy Rules  
Module 8: Enable Encrypted Traffic Inspection Encrypted Traffic SSL Configuration Configuring SSL Exceptions  
Module 9: Enable Corporate Users to Securely Access the Internet Firewall/VPN (IPsec) Access Method  
FQDN-IKEv2 Firewall Access Method Cert-Based Connection Access Method  
TransProxy (Explicit Proxy Over IPsec) Access Method Proxy Forwarding Access Method  
Module 10: Identify Web Usage and Security Statistics with Reports Reports Overview Pre-defined Reports Simple Reporting  
Custom Reporting Forensic Reporting Managing and Using Reports  
Module 11: Enable Mobile Users to Securely Access the Internet About Mobile Device Security Authentication for Mobile Users  
SEP-Mobile Solution Android Mobile Access Enrollment Process Module 12: Course review Assessment of Needs  
Design – Access Methods and Authentication Design – Policy, Reporting and Threat Protection Design Evaluation

## Test und Zertifizierung

250-554 Administration of Symantec Web Security Service R1.1

## Weitere Informationen

This course includes practical hands-on exercises that enable you to test your new skills and begin to use those skills in a working environment.
