Description

The Veritas Enterprise Vault 12.x: Administration course is designed for system administrators tasked with operating, integrating, and monitoring the day-to-day performance of Enterprise Vault within a Microsoft Exchange environment. This five-day, instructor-led, hands-on class covers Enterprise Vault's functionality, operations and features. Additional topics include using reports, basic management, classification, and an overview of Enterprise Vault backup and restore requirements. After you complete this course, you will know how to, manage, monitor, and maintain Enterprise Vault.

Objectifs

By the end of this course, you will be able to:

- Describe the purpose and benefits of Enterprise Vault.
- Navigate the Administration Console.
- Describe the components of Enterprise Vault.
- Manage Exchange targets.
- Maintain mailbox archives and client settings.
- Manage client access to archives.
- Migrate PST files.
- Maintain journal archiving.
- Review and maintain Enterprise Vault storage.
- Manage storage retention and deletion.
- Manage Indexing.
- Configure and manage classification.
- Support Enterprise Vault Search.
- Monitor and manage Enterprise Vault servers.
- Outline Enterprise Vault backup and recovery

Audience

This course is for system administrators, system engineers, technical support personnel, and system integration/development staff who are responsible for installing, operating, or integrating Enterprise Vault within their Exchange environment.

Prérequis

You must have a working knowledge of Microsoft Windows Server 2012 with some system administration experience. Basic familiarity with Exchange/Outlook is sufficient, while an understanding of Microsoft SQL Server, Exchange, and Active Directory as a power user or administrator is useful.

Programme

Lesson 1: Introduction to Administering Enterprise Vault• Enterprise Vault: Overview• Administering Enterprise Vault: Overview
Lesson 2: Maintaining Exchange Targets and Tasks• Exchange targets and tasks: Overview• Adding Exchange targets
• Maintaining and monitoring required tasks• Archiving from an Exchange DAG Lesson 3: Managing Mailbox Archiving
• Determining what is archived from targets• Applying archiving options to mailboxes
Lesson 4: Managing Enterprise Vault Client Settings• Managing client settings
• Adding new users to the Enterprise Vault environment Lesson 5: Managing Client Access – Outlook
• Accessing Enterprise Vault archived items: Overview• Supporting Exchange client access: Outlook
Lesson 6: Managing Client Access – Vault Cache and Virtual Vault• Vault Cache and Virtual Vault: Overview
• Supporting Exchange client access: Vault Cache• Supporting Exchange client access: Virtual Vault
Lesson 7: Managing Client Access – Office Mail App and OWA• Accessing Enterprise Vault archived items: Overview
• Supporting Exchange client access: Office Mail App• Supporting Exchange client access: Outlook Web App (OWA)
Lesson 8: Maintaining Journal Archiving• Journal archiving overview• Monitoring journal archiving• Managing journal archiving
Lesson 9: Migrating PST Files – Introduction• PST migration: Overview• Using PST migration tools• Configuring PST settings
Lesson 10: Migrating PST Files – Performing Migrations• Migrating with client-driven PST migration
• Migrating with server-driven PST migration Lesson 11: Maintaining the Enterprise Vault Environment
• Monitoring and maintaining the Enterprise Vault server• Maintaining database resources• Updating the environment
Lesson 12: Maintaining Enterprise Vault Storage I• Archive storage overview• Determining current storage state and usage
• Expanding the storage configuration Lesson 13: Maintaining Enterprise Vault Storage II• Maintaining storage locations
• Modifying storage Lesson 14: Managing Storage Retention and Deletion• Managing storage retention and expiry
• Managing expiry and deletion• Working with retention categories and retention plans• Implementing Record Management

Lesson 15: Managing Indexes• Index overview• Monitoring Indexes• Maintaining Indexes Lesson 16: Managing Classification
• Classification overview• ICE prerequisites• Information Classifier overview• Configuring ICE classification• Classification policies
Lesson 17: Managing Enterprise Vault Search• Enterprise Vault Search overview• Supporting search
• Managing archive permissions• Configuring user deletion and recovery Lesson 18: Maintaining Monitoring and Reporting
• Managing monitoring• Managing reporting Lesson 19: Disaster Recovery Overview• Backup overview
• Backing up Enterprise Vault components• Recovering Enterprise Vault
