VMware Tanzu Kubernetes Grid: Install, Configure, Manage [V1.0]

CODE:	**LENGTH:**	**PRICE:**
VMW_TKGICM1	16 Hours (2 days)	€1,500.00

Description

During this two-day course, you will focus on installing VMware TanzuTM Kubernetes GridTM on a VMware vSphereTM environment and then you will provision and manage Tanzu Kubernetes clusters.

Objectives

By the end of the course, you should be able to meet the following objectives:

- • Describe how Tanzu Kubernetes Grid fits in the VMware TanzuTM portfolio
- • Describe the Tanzu Kubernetes Grid architecture
- • Deploy management clusters
- • Deploy workload clusters
- • Configure your Tanzu Kubernetes Grid instance for authentication, logging, and Kubernetes ingress.
- • Perform basic troubleshooting

Audience

VI admins who are responsible for deploying and managing Kubernetes clusters.

Prerequisites

Working knowledge of Kubernetes.

Programme

1 Course Introduction

- • Introductions and course logistics
- • Course objectives

2 What Is VMware Tanzu Kubernetes Grid?

- • VMware Tanzu portfolio
- • Management cluster
- • Workload clusters
- • Cluster plans
- • Shared and in-cluster services

3 Deploying Management Cluster

- • Prerequisites
- • Installing the Tanzu Kubernetes Grid CLI
- • Creating management clusters

4 Deploying Workload Clusters

- • Creating workload clusters

- • Scaling workload clusters
- • Deleting workload clusters

5 Configuring Tanzu Kubernetes Grid instances

- • Configuring user authentication
- • Configuring logging
- • Configuring ingress control

Session Dates

On request. Please contact us

Additional Information

This training is also available as onsite training. Please contact us to find out more.
