Description

Cena kurzu je 1 725 Liber a bude přepočtena aktuálním kurzem v poslední den školení.

Školení je vedené virtuálně v angličtině.

This foundational course to Citrix Workspace intelligence ushers students into the new generation of Citrix teaching how intelligent features help organize, guide, and automate the future of work.

Gain an understanding of the fundamentals of web services, APIs, and systems integrations through building microapps designed to boost employee productivity and optimize the end user experience.

This three-day course will cover the fundamentals of Citrix Microapps, web services, security considerations and API troubleshooting to help you successfully deploy microapps in your environment.

Cíle

Gain foundational knowledge of Citrix Intelligent Workspace to be successful with Citrix microapps.

How to deploy and configure Citrix Intelligent Workspace Microapps as well as the fundamentals of APIs and Systems of Record (SoR) integrations.

Deploy microapps from existing templates, as well as custom System of Record integrations and microapp deployment.

Určeno pro

Built for IT professionals looking to build and deploy microapps with Citrix Workspace. Potential students include administrators, engineers or application developers, and architects responsible for the Citrix Workspace experience.

Vstupní znalosti

This course requires little to no previous experience with web development, APIs, or system integrations, however, Citrix recommends a familiarity with Citrix Digital Workspace or Citrix Cloud prior to attending this course. Those without this experience might consider the CWS-215 Citrix Virtual Apps and Desktops 7 Administration as a starting point.
