# VMware vRealize Log Insight: Deploy and Manage [V4.7]

<b>CODE:</b>	<b>LENGTH:</b>	<b>PRICE:</b>
VMW_VRLIDM47	16 Hours (2 days)	kr17,000.00

## Description

In this two-day course, you focus on deploying, using, and managing VMware vRealize® Log Insight™. You learn about the configuration and use of vRealize Log Insight to collect and manage logs from a variety of VMware and third-party products. This course discusses interfacing vRealize Log Insight with other systems to monitor, troubleshoot, and secure a data center.

## Objectives

By the end of the course, you should be able to meet the following objectives:

- Describe the features of vRealize Log Insight that help in managing logs
- Describe how to install, configure, and use vRealize Log Insight to collect and analyze logs to better manage and monitor your systems
- Explain how vRealize Log Insight can be integrated with other solutions for monitoring, troubleshooting, and securing a data center
- Describe vRealize Log Insight architecture and use cases • Explain vRealize Log Insight extensibility and workflows

## Audience

Experienced system administrators, system integrators, and developers responsible for designing and implementing vRealize Log Insight

## Prerequisites

This course requires completion of one of the following courses: • VMware vSphere: Install, Configure, Manage [V6.x]

- VMware vSphere: Fast Track [V6.x]

The course presumes that a student can perform the following tasks with no assistance or guidance before enrolling in this course:

- Use VMware vSphere® Web Client • Perform routine VMware vCenter Server® tasks
- Perform basic Windows management operations

If you cannot complete all of these tasks, VMware recommends that you complete one of the prerequisite courses before enrolling in VMware vRealize Log Insight: Deploy and Manage.

## Programme

1 Course Introduction • Introductions and course logistics • Course objectives • Identify additional resources for after this course

2 Introduction to vRealize Log Insight • Describe a cloud management platform • Discuss sources of logging data

- Explain the importance of efficient log management • Describe the requirements for a log analytics solution

• Describe the benefits of vRealize Log Insight • Describe the key features of vRealize Log Insight

3 Deploying and Configuring vRealize Log Insight • Specify the minimum hardware requirements for vRealize Log Insight

- Size the vRealize Log Insight virtual appliance • Describe the compatibility of vRealize Log Insight with other VMware products

• Describe vRealize Log Insight security requirements • Describe the supported file and archive formats in vRealize Log Insight

• Install the vRealize Log Insight virtual appliance • Perform initial configuration of the vRealize Log Insight virtual appliance

• Configure VMware vSphere® integration with vRealize Log Insight 4 Using vRealize Log Insight

• Describe the primary vRealize Log Insight UI functions • Access the vRealize Log Insight UI

• Use the Dashboards tab to view collected data • Customize the dashboards interface • Create custom dashboards

• Describe and use vRealize Log Insight widgets • Use various chart types to display log events data

• Use the Interactive Analytics tab to delve deeper into the log data • Create and manage queries

5 Administering vRealize Log Insight • Access the vRealize Log Insight Administration page

- Install and configure vRealize Log Insight clusters • Configure vRealize Log Insight access controls

- Configure the general settings in vRealize Log Insight
- Describe and configure storage policies in vRealize Log Insight
- Configure system notifications
- Upgrade vRealize Log Insight
- Monitor vRealize Log Insight
- Examine vRealize Log Insight logs
- Describe the contents of a log message
- List vRealize Log Insight data sources
- Describe the Syslog protocol
- Install and manage vRealize Log Insight agents
- Configure agent groups
- Install and manage content packs
- Use the log importer to import historical logs
- Integrating vRealize Log Insight
- Describe the advantages of VMware vRealize® Operations Manager™ integration with vRealize Log Insight
- List the vRealize Operations Manager integration requirements
